IT ALL STARTED WITH THE BLUE DOT

1923

A company named “Ideal” was first founded in Berlin when radio was still in its infancy. Every unit was carefully tested by technicians and labeled with a seal for quality—the blue dot. It did not take long before customers simply asked for the “bluepoint” products. The blue dot quickly became known as a symbol of outstanding quality and has been finally registered as a trademark in **Jan. 1924**

1932

The first car radio in the world was launched by BLAUPUNKT.

1938

The dot became the new company name: BLAUPUNKT.
