MICROWAVABLES

Made of 100% borosilicate glass, our microwavables range has the unique ability to withstand extreme temperatures, making it safer and stronger than regular glass. Borosilicate glass is the safest and healthiest option as unlike plastic and ordinary glass, it does not leech chemicals into food even after repeated usage. The glass retains its clarity over years of usage, ensuring that your food looks as fabulous as it tastes. Cook, heat, serve, store - do it all with ease in Borosil.

SERVE

The microwavables are perfect for daily serving as they keep the food warm and don't allow anything to fall in, so that you can be the center of your assemblies.

HEAT

The cap comes to retain food - the lid keeps gravy from splashing in the microwave.
