ABOUT US

Pavaki was incorporated in the year 2017 with the sole purpose of introducing traditional copper in a modern and urban way, today's generation seems to have forgotten that copper is not just an ordinary metal but is very healthy in terms of the minerals it imparts to the water which it stores. Hence we have taken a step to introduce stylish copper bottles, jugs, gift sets and many more to suit the trends of the current generation.

At pavaki it is very important for us to ensure that we are able to deliver the best products and experiences to our customers whenever they chose to welcome us at their homes. Which is why, we don't just handcraft our products with a lot of care but also ensure that we are constantly innovating our products to outmatch the market trends.

PLAIN
BOTTLES

A close-up photograph of a copper bottle cap and the neck of a bottle. The copper has a warm, reddish-brown hue and a slightly textured surface. The lighting is dramatic, highlighting the metallic sheen and the intricate details of the cap's threads and the bottle's neck.

There are several reasons for making the switch from plastic water bottles to copper bottles.

For one, copper bottles are safer, not just for the environment, but also for our bodies.

The copper ions released purify the water, and are beneficial for the health of adults and children alike.

Pavaki's copper bottles are one of our bestselling products. If you're someone who's passionate about a sustainable

lifestyle, our copper bottles would be the perfect addition to your home! They're utilitarian but not bulky, simple yet tasteful, and easily portable. The best part? They're affordable, and will last you almost a lifetime.

Ditch the harmful, carcinogenic plastics, and switch over to a better way of living with Pavaki's copper bottles.

Our handcrafted range of copper bottles will brighten up your home, boost up your health and provide a touch of nourishment to your life!

Heals wounds faster

Immunity Boost

PRINTED BOTTLES

Now, more than ever, we need to be mindful of the choices we make and the impact they have on our environment. We, at Pavaki, believe that sustainability shouldn't come at the cost of giving up on style. Our range of printed copper bottles are perfect for the environment-loving trendsetter! Our designs range from quirky to elegant and are made to reflect your every mood.

When you use copper bottles, they tend to develop some spots due to the process of oxidation after coming in contact with water/moisture. While this is a good sign as it shows your bottle is of pure quality, some might feel discouraged by the appearance and continue to stick to plastics. The minds at Pavaki have a simple, affordable and stylish solution for this. With our printed bottles, you can rest assured that there will be no discoloration and the bottles will look as good as new for as long as you use them. Not only do you get to enjoy the many benefits of copper water bottles, you can now enjoy these without compromising on finesse and class. Sustainability never looked this good!

**JUGS &
POTS**

Pavaki's Copper jugs are definitely a level-up from the usual copper bottles. Now with all the health benefits of copper, you get a jug that has a mug attached to its lid for the purpose of drinking.

This extraordinary and innovative concept makes the jug easy to use, and super convenient! The mug, of optimum size and impeccable design, is truly the highlight of this product.

Add to this the regal style of the jug itself, and we clearly have a winner. To top it all off, drinking water from copper bottles is proven to improve body immunity, aid in healing and fight off several illnesses.

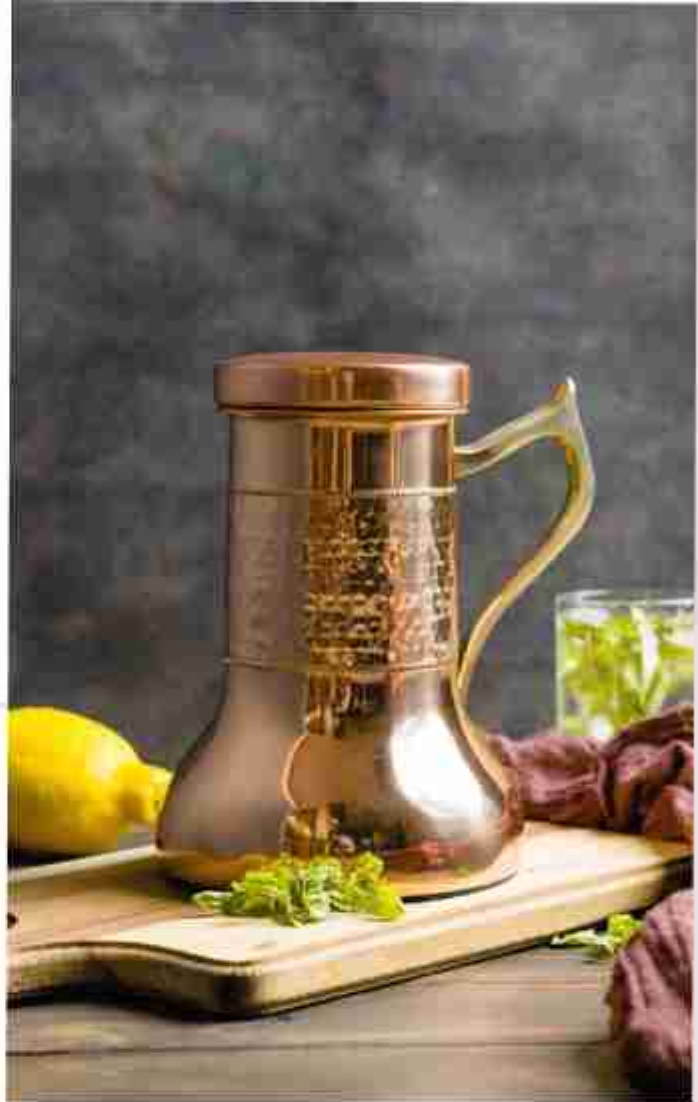

Pavaki's Copper jugs are a wonderful addition to your home, not just for the elegant appearance but also because of the many ways in which it promotes good health. They're a far better alternative to plastics, and a lot more durable than glass jugs. Easy to clean and maintain, these copper jugs are also a step forward in reducing environmental wastes.

Copper was the first element known to man. A naturally antibacterial element, copper has stood the test of time through every stage of history. With this copper jug, you'll be taken right back to your roots!
