

A photograph of a man and a woman in a kitchen. The woman, in the foreground, is wearing a light-colored robe and is smiling as she looks down at a coffee machine. The man, in the background, is also smiling and appears to be operating the machine. The scene is dimly lit, creating a warm and intimate atmosphere. The text 'Happiness Engineered' is overlaid in a large, white, serif font across the center of the image.

Microwave oven

Microwaves are versatile appliances. They can be used for grilling, toasting and even baking, apart from their primary function of heating and defrosting.

The deciding factors to ponder upon before choosing a microwave are the usage, the placement of the machine, type, size, and features.

Pop-up toaster

Toasters may look basic, but they are essential for every household. Like any other kitchen appliance, toasters are available in different types, sizes and price ranges. Thus, navigating through the wide range of options can get pretty complicated. Choose from two to four slice toasters, auto buttons and if you're a lover of crispy toasts (who isn't?), pick one up right away.

Warm, convenient & comfortable.

Room heater

Morphy Richards offers a wide range of PTC Element Heaters and Oil Filled Radiators (OFR) that delivers warmth and comfort while keeping your energy bills low. OFRs are best suited for overall heating of the room. This maintains the room's temperature by letting the warm air flow even to the farthest corners of your room. PTC Heaters on the other hand are best used for directional and spot/personal heating.
