Passion to Purpose

Our Story

We hail from a small town but we have big aspirations! Growing up on our family farms in Raipur, Chattisgarh, we implicitly understood the power of carefully extracted botanicals and healing herbs. At the same time, we were shocked to see spurious, synthetic skin care products with false claims lining shelves of departmental stores in big cities. There was a gaping void in the skin care market of brands that prioritized the needs of its consumers with efficacy, quality, and purity at its core. We set out to fill this void with RAS. In our journey, we were joined by the farmers, cultivators, and scientists and we are just getting started!

India is a haven of healing herbs, deep knowledge of botanicals and luxury! We want to bring this to the world in its truest, most luxurious form.
