# Spaces Innovations

-  Blooms When Washed
-  Dries You Quicker
-  More Absorbent

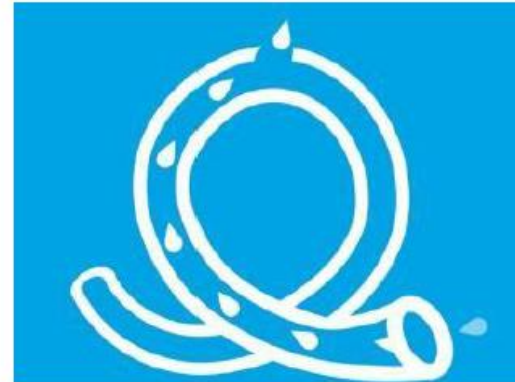

# Hygro Properties

## WHAT IS HYGROCOTTON?

HYGROCOTTON products are made with a **patented technology** & using a **hollow core cotton yarn**.

Spinning uses a technology that makes the area of the fiber bigger which helps it absorb more.

Hollowness increases airflow which helps the towel/bed sheet to dry faster. It also helps to make the fabric extra fluffy after a wash.

Breathable

Better over time

Temperature control

More absorbent

Dries you quicker

Blooms, softens  
When washed

Before Washing

After 3 Washing
